pfm medical gmbh offers a broad range of FEATHER® disposable microtome blades for paraffin and cryostat sectioning for the whole range of individual applications in routine practice, research and industry.

www.pfmedical.com

pfm medical gmbh offers a broad range of **FEATHER® disposable microtome blades** for paraffin and cryostat sectioning for the whole range of individual applications in routine practice, research and industry.

S35

Use

The S35 disposable microtome blade is a standard blade for routine practice and biopsies.

Details

- With excellent sectioning quality from the beginning
- Very long service life
- Short trimming time

Technical Data

- Material:** stainless steel
- Length:** 80 mm
- Height:** 8 mm
- Blade angle:** 35°
- Dispenser:** 50 pcs.

Ordering Information

Type S35

REF 207500000

R35

Use

The R35 disposable microtome blade is extra suitable for routine ribbon sectioning and for hard tissues.

Details

- Specially hardened cutting edge
- Short trimming time

Technical Data

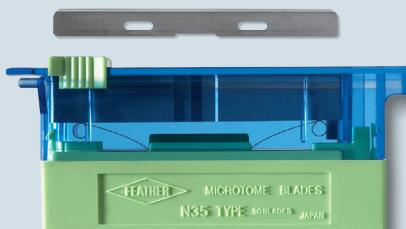

- Material:** stainless steel
- Length:** 80 mm
- Height:** 8 mm
- Blade angle:** 35°
- Dispenser:** 50 pcs.

Ordering Information

Type R35

REF 207500005

N35

Use

The N35 disposable microtome blade is particularly suitable for hard tissues.

Details

- ▶ Longer service life
- ▶ Suitable for all routine sectioning, also for soft tissue and biopsies
- ▶ Also suitable for ribbon sectioning after trimming
- ▶ Low compression

Technical Data

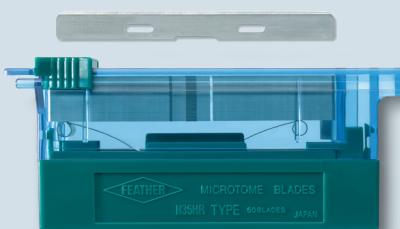

- ▶ **Material:** stainless steel
- ▶ **Length:** 80 mm
- ▶ **Height:** 8 mm
- ▶ **Blade angle:** 35°
- ▶ **Dispenser:** 50 pcs.

Ordering Information

Type N35

REF 207500006

N35HR

Use

The N35HR disposable microtome blade is particularly suitable for sectioning hard and difficult tissues.

Details

- ▶ Suitable for routine and ribbon sectioning
- ▶ Low compression
- ▶ Longer service life
- ▶ Short trimming time
- ▶ New coating
- ▶ Specially finished cutting edge

Technical Data

- ▶ **Material:** stainless steel
- ▶ **Length:** 80 mm
- ▶ **Height:** 8 mm
- ▶ **Blade angle:** 35°
- ▶ **Dispenser:** 50 pcs.

Ordering Information

Type N35HR

REF 207500014

A35

Use

The A35 disposable microtome blade allows the production of very thin sections and is suitable for hard and soft tissues.

Details

- Very long service life (also for hard tissue)
- Short trimming time with corresponding clearance angle
- Very sharp

Technical Data

- Material:** stainless steel
- Length:** 80 mm
- Height:** 8 mm
- Blade angle:** 35°
- Dispenser:** 50 pcs.

Ordering Information

Type A35

REF 207500011

A22

Use

The A22 disposable microtome blade allows the production of very thin sections in routine use and research and is suitable for fibrous tissues (biopsies/fabrics).

Details

- Long service life
- Short trimming time with corresponding clearance angle
- Very sharp
- Also suitable for ribbon sectioning after trimming

Technical Data

- Material:** stainless steel
- Length:** 80 mm
- Height:** 8 mm
- Blade angle:** 22°
- Dispenser:** 50 pcs.

Ordering Information

Type A22

REF 207500002

S22

Use

The S22 disposable microtome blade allows the production of extra-thin sections and is suitable for soft tissues/fabrics.

Details

- ▶ Long service life
- ▶ Short trimming time with corresponding clearance angle

Technical Data

- ▶ **Material:** stainless steel
- ▶ **Length:** 80 mm
- ▶ **Height:** 8 mm
- ▶ **Blade angle:** 22°
- ▶ **Dispenser:** 50 pcs.

Ordering Information

Type S22

REF 207500001

C35

Use

The C35 disposable microtome blade is specifically designed for cryostat sectioning.

Details

- ▶ Carbon steel blade
- ▶ Short trimming time

Technical Data

- ▶ **Material:** carbon steel
- ▶ **Length:** 80 mm
- ▶ **Height:** 8 mm
- ▶ **Blade angle:** 35°
- ▶ **Dispenser:** 20 pcs.

Ordering Information

Type C35

REF 207500003

S35L

Use

The S35L disposable microtome blade with a length of 120 mm is particularly suitable for large tissue blocks and routine sectioning.

Details

- ▶ Short trimming time

Technical Data

- ▶ **Material:** stainless steel
- ▶ **Length:** 120 mm
- ▶ **Height:** 8 mm
- ▶ **Blade angle:** 35°
- ▶ **Dispenser:** 20 pcs.

Ordering Information

Type S35L

REF 207500004

S35LL

Use

The extra-long S35LL disposable microtome blade with a length of 180 mm is suitable for large tissue blocks and routine sectioning.

Details

- ▶ Short trimming time

Technical Data

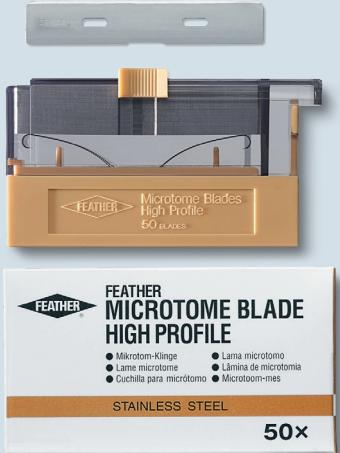

- ▶ **Material:** stainless steel
- ▶ **Length:** 180 mm
- ▶ **Height:** 8 mm
- ▶ **Blade angle:** 35°
- ▶ **Dispenser:** 20 pcs.

Ordering Information

Type S35LL

REF 207500009

High Profile

Use

The High Profile disposable microtome blade is suitable for all paraffin embedded tissue blocks in routine applications.

Details

- ▶ Short trimming time

Technical Data

- ▶ **Material:** stainless steel
- ▶ **Length:** 80 mm
- ▶ **Height:** 14 mm
- ▶ **Blade angle:** 35°
- ▶ **Dispenser:** 50 pcs.

Ordering Information

Type **High Profile**

REF 207500010

SH35W

Use

The SH35W disposable microtome blade is particularly suited for sectioning resin embedded tissue and hard materials. Suitable for use with the pfm medical disposable blade holder HP TC (REF 030065).

Details

- ▶ High Profile blade with Tungsten Carbide edge

Technical Data

- ▶ **Material:** stainless steel with Tungsten Carbide edge
- ▶ **Length:** 80 mm
- ▶ **Height:** 15 mm
- ▶ **PU:** 3 pcs.

Ordering Information

Type **SH35W**

REF 207500015

Blade Depot

Use

The blade depot provides suitable storage for FEATHER® disposable microtome blades.

Details

- Storage capacity: approx. 200 blades
- Accessorie: protective cover blade deposit

Manufacturer

pfm medical gmbh
Winkelstraße 60
50996 Köln, Germany
